

FIRE FIGHTER I & II CURRICULUM DEVELOPMENT WORKSHOP

The **CDF/State Fire Training Curriculum Development Division** is hosting a curriculum development workshop to update the Fire Fighter I and Fire Fighter II Instructor Guides. These two revised fire fighter certification programs will meet and exceed the **1997 NFPA 1001** Standards for Fire Fighters and the 1998 State Fire Training **Certification Training Standards** for Fire Fighters. Where applicable, the lesson plans will utilize the latest edition "Essentials of Firefighting" manual published by IFSTA.

The workshop is scheduled for **August 7 – 11, 2000** at the **CDF Academy** in Lone located 40 miles southeast of Sacramento. Participants will be provided housing and meals at the academy starting with Sunday dinner on August 6. In order to offset these costs, each participant will pay a nominal \$50.00 workshop fee.

The workshop will draw from **subject matter** and **curriculum development** experts in the California fire service to develop or update lesson plans and written tests. As with previous curriculum development workshops, this workshop will run under the Incident Command System to provide an effective system for managing resources and workload. Up to **60 participants** will be selected from all parts of the state and all sizes of **departments** or community college **fire academies**.

Many individuals and organizations support and maintain this system. However, no organization or individual plays a more pivotal role than those who donate their time, energy, and resources to ensure our curriculum reflects **current technology** and **criteria**. Anyone interested in participating in this important event should complete the attached application form and return it to the address listed below by **MAY 12, 2000**. Additional applications may be downloaded from our web site www.fire.ca.gov/sfm_training. Participants will be selected on their subject matter or curriculum development experience. After completion of the project, each participant will receive "signature edition" copies of the newly revised Fire Fighter I and Fire Fighter II Instructor Guides.

FIRE FIGHTER I & II CURRICULUM DEVELOPMENT WORKSHOP

CDF/State Fire Training Curriculum Development Division
 CDF Academy 4501 State Highway 104 Lone, CA 95640-9705

I would like to participate in the Fire Fighter Curriculum Development Workshop scheduled for August 7-11, 2000. I understand that by completing this application I am not guaranteed a place in the workshop. I also understand that I will be responsible for the \$50.00 workshop fee and all costs incurred while attending the workshop excluding Academy meals and lodging.
